

We thought it might be a good time to start to share with you some of the simple behaviour changes adopted by the Institute, resulted in that can lead to BIG savings in electricity usage. We have effectively reduced usage by 48%. This is happened just as per some of the innovative suggestions of our Director General and subsequently very sincerely implemented by staff/officials of our Institute.

Thanks to your efforts on our energy efficiency program. This effort will be continued for fostering national interest and ensuring the cost control of our Institution.

Mr Sunil Taneja

Administrative Officer (I/C)
